Profile

French engineering student at Télécom Saint-Étienne (apprenticeship track, class of 2028) and full-stack developer working in industry since September 2025. Looking for a fixed-term position abroad from June to August 2027 to apply web, mobile and CI/CD skills in an international team. French citizen, no work permit needed in the EU/EEA. Available from 7 June 2027 to 31 August 2027.

Education

Télécom Saint-Étienne – Engineering degree, apprenticeship track (FISA, IEID) — Sep 2025 – 2028 (expected)
Télécom Saint-Étienne – General Engineering Programme (computer science & optics) — Sep 2024 – Aug 2025
Télécom Saint-Étienne – Integrated Preparatory Cycle (CITISE), DUT GEII — 2022 – 2024

Professional experience

DOING – Full-stack developer (apprenticeship) — Sep 2025 – present

- **AMAGiS** – management software for SIAE (work-integration social enterprises), rewrite of a legacy VB6 application: web front end in Vue 3 / TypeScript, back end in Symfony (PHP).
- **E-TOTEM** – cross-platform mobile app in Flutter displaying a map of EV charging stations; reduced map loading time for a given area by a factor of 8.
- **Team practices** – daily work in a team with Git (Bitbucket), Conventional Commits and code review.

Safran Helicopter Engines, Bordes (France) – Project intern — May – Jul 2025

- Built a knowledge-sharing portal for the department on Microsoft 365 (SharePoint, Power BI, Excel) and designed the underlying database.

La Poste, Pau (France) – Sorting centre operator — Jul – Aug 2024

Treasury General of the Kingdom (TGR), Rabat (Morocco) – Project intern — Apr – Jun 2024

- Designed and developed a maintenance-management (CMMS) web application in Angular.

Projects

- **Personal portfolio** – interactive portfolio built with Nuxt, deployed through a GitHub Actions CI/CD pipeline to Cloudflare, with production (main) and staging (develop) environments, protected branches and PR validation. noah.soler-pro.fr
- **Camp-Boat** – WordPress website developed for a private client through INSPIRE, the school's junior-enterprise (new features and user documentation). camp-boat.fr
- **Embedded C (school project)** – C on PSoC Creator: UART terminal communication and a custom printf.
- **LIBTSE (school group project)** – LIBS-based soil contamination analysis device.

Skills

Languages & frameworks: TypeScript, Vue 3, Nuxt, PHP / Symfony, Dart / Flutter, Angular, C, HTML/CSS
DevOps & tools: Git, GitHub Actions (CI/CD), Cloudflare, Bitbucket, WordPress, Microsoft 365 / Power BI
Soft skills: teamwork, leadership, project coordination, documentation

Leadership & activities

- **President, Bureau des Sports (BDS), Télécom Saint-Étienne** – leading a team of about thirty students: organisation of sports events (ski weekend open to all students, petanque tournaments, inter-school tournaments), budget and coordination.
